Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-32, drawn to a method for analyzing adducts.

Group II, claim(s) 33-44 and 49, drawn to a method of making a standard material.

Group III, claims (s) 45 and 50, drawn to a product, specifically a compound.

Group IV, claims (s) 47, drawn to a product, specifically a container.

Group V, claims(s) 51, drawn to a product, specifically an apparatus for performing a method.

Group VI, claims (s) 52, drawn to a product, specifically a computer program.

2. The inventions listed as Groups I to Group VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. A method for analyzing adducts, the method of making a standard, a compound a container, an apparatus for performing a method for analyzing adducts and a computer for performing a method do not relate a single inventive entity. The methods are old and well known as disclosed by Rydberg et al, *Applicability of a Modified Edman Procedure for Measurement of Protein Adducts: Phenylthiohydantoin*s, Chem Res Toxicol, 2002, Vol 15, p 570-581. Furthermore the products for performing the method as disclosed is old and well known in the art disclosed by Carmella et al, *Ethylation and*

methylation of hemoglobin in smokers and non-smokers, Carcinogenesis, 2002, Vol 23, No 11, p 1903-1910. The compounds as claimed are old and well known in the art and can be found in the document Kawauchi et al, *Reaction of fluorescein-isothiocyanate with proteins and amino acids III. Syntheses of trifluoroacetic acid salts of fluorescein-thiohydantoin amino acids and their spectrometric studies*, Agricultural and Biological Chemistry, 1971, 35(2), p 150-157. Therefore, the method and product as claimed do not contain a special technical feature and the groups do not relate to a single general inventive concept.

4. A telephone call was made to Benoit Castel on 02 April 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTINE T. MUI whose telephone number is (571)270-3243. The examiner can normally be reached on Monday-Thursday 7-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Walter Griffin can be reached on (571) 272-1447. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
